iner's Guest Home is exactly that...home!

From the comfort and privacy of the rooms to the openness and friendliness of the recreation areas, the Elders have a place to call their own. They may even decorate their rooms with their own furnishings.

Our staff strives to provide care on an individual basis. We emphasize balanced, personal, professional interaction between our fully-qualified staff and the Elders, offering service that goes beyond simple caretaking to genuine concern.

We have created an environment that is simultaneously clean and professional, fresh and familiar.

It is a nice place to be, a safe place to be. It is...home!

*The library is one of many sources for entertainment and enjoyment.*

We offer the Elders things to do and things to look forward to, from current events discussion groups to special holiday parties and events.

Music performances or group sing-alongs, movies, trips to town, exercise classes, and bingo are weekly or twice-weekly occurrences. We offer regular shopping tours and lunch or brunch out. We also plan special outings, like trips to The Napa Valley Museum and the Napa Town and Country Fair.

The Elders who want to help keep things at their very best participate in the Resident Council Meetings every month. We listen to and act on their concerns, because the Elders are the ones for whom we work.

*We are here to help you, and still give you the privacy you expect.*

# F

resh, home cooked meals, prepared by our chefs daily at our on-site facilities, are among the things Elders like best about Piner's Guest Home.

We offer a structured dining program, but remain flexible. The regular schedule of breakfast, lunch, and evening snack is willingly adjusted for doctor's appointments or other needs of the individual Elder. Similarly, special dietary concerns are gladly addressed, and Elders may enjoy full restaurant-style service or serve themselves if they prefer. Beverages, fresh fruit, cookies, muffins, and other home baked goods are available day or night in our snack area.

The dining room is a clean, well-lighted place, with a wall of windows overlooking the patio and garden.

*Our beautiful restaurant-style dining serves delicious meals.*
