
Piner's Nursing Home was established in 1964. Since that time we have enjoyed an outstanding reputation for quality of care. Whether your need is for short term, such as for rehabilitation or as a respite from home care, or for long term placement, we feel that Piner's is a "must see" for anyone needing nursing care.

Piner's provides 24-hour nursing care for people who need moderate to total care. Our residents range from those needing extensive rehabilitation therapy after an acute hospital stay, to those whose health is at a place where they require some degree of 24-hour care.

◆Your personal physician directs your care, which is delivered by our professional staff with whom you are able to communicate your needs.

◆We offer complete rehabilitation services.

◆Excellent food is prepared by experienced chefs.

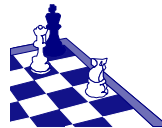

◆We make sure our facility is clean, well maintained, and devoid of those typical "nursing home odors".

◆The relatively small size of the

facility allows for more personalized care.

◆Through our unrestricted visiting hours, families are able to spend more quality time with their loved ones.

◆Extensive activities to keep the mind and body active.

◆Special occasion resident-family activities that create "occasions" to look forward to.

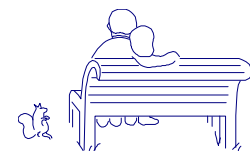

◆Our beauty shop is available for your needs and is staffed by a licensed beautician.

◆The security of on-site paramedics that are only a few yards away in case of an emergency.

◆Piner's medical supply is adjacent to the facility to serve your needs.

◆The proximity of Piner's Guest Home allows not only for transition of care when a resident no longer needs nursing care, but can also allow couples the opportunity of frequent visits when their personal needs differ.

A facility is more than a pretty waiting room, or a kind receptionist.

There are tremendous differences in facilities, and finding the right facility is an important decision. Since the only thing that a care facility has to offer is service, the most important thing to evaluate is service.

"We encourage you to come in for at least one tour and to spend as much time as you like to truly get the feeling for the warmth of the staff...the type of care that is what Piner's is really about."

Thank You

The Piner Family

Piner's Nursing Home, Inc.
